WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Plate 994 x 358.5 mm with 25 mm flanges folded down on all four edges; the side flanges stop 25 mm short of the front edge.
Top face 700 mm above the ground. Front edge on the front panel, back edge 110 mm behind the centre line (the plenum wall).
Per fitted bay (centres 392 and 196 left of the centre line):
four 5.5 mm holes, 60 mm each side of the bay centre and 188.5 and 308.5 mm back from the front edge (cradle screws);
one 40 x 30 mm cable hole on the bay centre, 241.5 to 271.5 mm back from the front edge, with an edge grommet.
Bays 3 and 4 (on and 196 right of the centre line): drill later.
Fit: side flanges riveted to the side panels, back flange to the plenum wall, front flange to the front panel.
Check: flat within 2 mm across the width.
