WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Front posts (2) 766 mm and rear posts (2) 696 mm long on their centre line; cut the top end at 10 degrees, sloping down to the back.
Base plate 50 x 100 x 8 mm, the post centred on it 25 mm from the outer end; two 11 mm holes on its centre line, 15 and 85 mm from the outer end (235 and 165 mm from the cabinet centre).
Cap plate 50 x 70 x 6 mm on the sloping top, two 9 mm holes for the rail bolts, 40 mm apart along the slope.
Weld both plates all round; paint.
Fit: base plate flat on the roof over the beam, two M10 bolts through plate, roof and beam, nuts under the beam.
The rail sits on the cap plate on two M8 bolts.
Check: post square to the base plate within 1 degree.
